

Oracle - Oracle Revenue Management and Billing (ORMB)

Code: RMB-LS
URL: [View Online](#)

This learning subscription is an all digital learning solution for team members seeking functional and technical training on Oracle Revenue Management and Billing (ORMB). The subscription will be updated for new features and product enhancements. Hands-on labs are included so you can practice what you learn. Get a strong functional foundation on ORMB, so that you can serve the needs of a wide variety of banking and financial services companies. This includes understanding the User Interface and customer and product maintenances. Learn about the rates engine and pricing, while also gaining insight into payments, financial transactions, process overdues, refunds and write offs. Also, develop a solid technical foundation of ORMB and the tools used to configure and extend it. This includes developing a solid understanding of the Oracle Utilities Application Framework (OUAF) Software Development Kit to extend the product by populating metadata, rather than by programming. Learn how to change and maintain the front-end and back-end configuration of your ORMB product.
